

Howard Winneshiek Community Schools

This agreement is made effective upon receipt of the laptop computer, between the Howard Winneshiek Community School District (Howard-Winn), the student receiving a laptop (“Student”), and his/her parent(s) or legal guardian (“Parent”). The Student and Parent(s), in consideration of being provided with a laptop computer, software, and related materials (the “Computer”) for use while a student is enrolled at Howard Winneshiek Community School District, hereby agree as follows:

1. Equipment

- 1.1. **Ownership:** Howard-Winn retains sole right of possession of the Computer and grants permission to the Student to use the Computer according to the guidelines set forth in this document. Moreover, Howard-Winn administrative staff retains the right to collect and/or inspect the Computer at any time, including via electronic remote access; and to alter, add, or delete installed software or hardware.
- 1.2. **Equipment Provided:** Efforts are made to keep all laptops configurations the same. All Computers include a protective laptop case, software, and other miscellaneous items. Howard-Winn will retain records of the serial numbers of provided equipment.
- 1.3. **Substitution of Equipment:** In the event the Computer is inoperable, Howard-Winn has a limited number of spare laptops for use while the Computer is repaired or replaced. However, it cannot guarantee a loaner will be available at all times. This agreement remains in effect for such a substitute. The Student may NOT opt to keep a broken Computer or to avoid using the Computer due to loss or damage. Please note that if the Student forgets to bring the Computer or power adapter to school, a substitute will not be provided.
- 1.4. **Responsibility for Electronic Data:** It is the sole responsibility of the Student to back-up such data as necessary. Howard-Winn will not provide a means for back-up along with directions.

2. Damage/Loss or Inappropriate Use of Equipment

- 2.1. **Responsibility for Damage:** The Student is responsible for maintaining a 100% working Computer at all times. The Student shall use reasonable care to ensure that the Computer is not damaged. Refer to the *Standards for Proper Care* document for description of expected care. The Student and Parent will be billed a fee according to the damage of the device.
- 2.2. **Responsibility for Loss:** In the event the Computer is lost or stolen, the Student and Parent may be billed the full cost of replacement.
- 2.3. **Actions Required in the Event of Damage or Loss:** Report the problem immediately to the Technology Department. If the Computer is stolen or vandalized while not at Howard-Winn or at a Howard-Winn-sponsored event, the Parent shall immediately contact Howard-Winn.
- 2.4. **Technical Support and Repair:** Howard-Winn does not guarantee that the Computer will be operable, but will make technical support, maintenance, and repair available. Howard-Winn reserves the right to charge the Student and Parent the full cost for

File-sharing programs and protocols like BitTorrent, Limewire, Kazaa, Acquisition, and others may not be used to facilitate the illegal sharing of copyrighted material (music, video, and images). Individuals with legitimate, school-related needs to use these tools may seek prior approval from the Technology Department.

3.4. Allowable Customizations:

Standards for Proper Care of the MacBook

Users are responsible for the general care of the MacBook computers they have been issued by the school. MacBook computers that are broken or fail to work properly must be reported to the Technology Department or taken to the Technology Department Office for a loaner should the device have a serious malfunction.

General Precautions

- Users are responsible for keeping their MacBook laptop computer's battery charged for school each day.
- No food or drink is allowed next to your MacBook computer while it is in use. Do not eat or drink while using your MacBook.
- Cords, cables, and removable storage devices must be inserted carefully into the MacBook.
- Users should never carry their MacBooks while the screen is open, unless directed to do so by a teacher.
- MacBooks should be closed and put to *Sleep* before moving them to conserve battery life.
- MacBooks must remain free of any writing, drawing, stickers, or labels that are not the property of the Howard-Winneshiek Community School District. Removable *Clings* are allowed.
- Do not attempt to remove or change the physical structure of the computer, including keys, screen cover, or plastic casing. Doing so will void the warranty, and families will be responsible for 100 percent of the repair or replacement cost.
- Do not remove or interfere with the serial number or any identification placed on the computer.
- MacBooks must never be left in a car or any unsupervised area.

Carrying MacBook Laptop Computers

The protective sleeve provided has sufficient padding to protect the MacBook from normal treatment and provide a suitable means for carrying the computer within the school. The guidelines below should be followed:

- MacBooks should always be within the protective sleeve when carried.
- Do not place other objects (such as folders and books) within the sleeve to avoid causing too much pressure and weight on the mobile computer screen.
- Always completely close the lid and wait for the computer to enter *Sleep* mode before moving it, even for short distances. Movement while the computer is on can result in permanent damage to the hard-drive and therefore the loss of all data. Sleep mode is sufficient—there is little reason to actually shut-down the laptop other than on an airplane or during extended days of inactivity.
- We recommend that you carry the laptop bag inside your normal school pack. The *vertical sleeve* style laptop case was chosen expressly for this purpose. Simply slide the computer in and out while leaving while leaving the case within your school backpack. Do not overstuff your pack—extreme pressure on the laptop can cause permanent damage to the screen and other components.
- Do not lift the MacBook while holding the edge with the disk drive. The plastic is thin here; it is a weak spot.
- Do not grab and squeeze the computer as this can damage the screen and other components.

Howard Winneshiek Community Schools

Standards for Proper Care of the MacBook

Screen Care

The mobile computer screens can be easily damaged if proper care is not taken. Broken screens are NOT covered by warranty and can cost over \$800 to replace. Screens are particularly sensitive to damage from excessive pressure. Please care for your screen:

- Do not touch the computer screen with anything (e.g., your finger, pen, marker, etc.) other than approved computer screen cleaners.
- Do not leave anything on the keyboard before closing the lid (e.g. pens, pencils, or disks). A pen or pencil left on the keyboard will crack the screen when the lid is closed.
- Do not lean on the top of the mobile computer when it is closed.
- Do not place anything near the mobile computer that could put pressure on the screen.
- Do not place anything in the carrying case that will press against the cover.
- Do not poke the screen.
- Clean the screen with a soft, dry, anti-static, or microfiber cloth or with screen cleaner designed specifically for LCD-type screens. Do not use cleaning solutions.

Battery Life and Charging

- Arrive at school each day with a fully charged battery. Establish a routine at home whereby each evening you leave your computer charging overnight.
- Avoid using the charger in any situation where you or another is likely to trip over the cord.
- Don't let the battery completely drain. Immediately shut down if you are unable to connect to the charger.
- Close the lid on the computer when it is not in use in order to save battery life and protect the screen.

Using Your MacBook at School

- MacBooks are intended for use at school each day. School messages, announcements, calendars, and schedules will be accessed using the MacBooks in addition to routine instructional tasks.
- Sound should be muted at all times unless used for instructional purposes.

MacBooks at Home

- When users are not monitoring mobile computers, they should be stored in a safe location. Users are encouraged to take their mobile computers home every day after school, regardless of whether or not they are needed. Mobile computers should not be stored in a vehicle. When not in use, store your laptop in the bag in an upright position.
- Users may use printers anywhere within the building. Home printer software will not be installed; however, if at home you see your printer model listed in the "add printers" dialog it may be safely added to your computer.
- If Users leave their mobile computer at home, all means to have it brought to school should be sought prior to the start of school. Loaners under such conditions will be allowed for the term of one day should one be available and if absolutely necessary.

Howard Winneshiek Community Schools

Standards for Proper Care of the MacBook

Saving Data to Removable Storage Devices

- Users may choose to store personal items such as pictures or music using removable storage devices. Users may also choose to backup their other work using removable file storage.
- Removable memory cards may be purchased at a local retailer. The computer's 6-in-1 memory card reader will read the following types of memory cards:
 - Secure Digital™
 - Memory Stick®
 - Memory Stick Pro®
 - Mini Secure Digital®
 - MultiMedia Card™

Privacy and Safety

- Avoid chat rooms or sending chain letters without permission.
- Only open, use, or change computer files that belong to you.
- Never reveal your full name, phone number, home address, social security number, credit card numbers, password, or passwords of other people.
- Remember that storage is not guaranteed to be private or confidential.
- If you inadvertently access a web site that contains obscene, pornographic, or otherwise offensive material, notify a staff member immediately so that such sites can be blocked from further access. This is not merely a request; it is a responsibility.

Online Communication

- Always use appropriate language.
- Do not transmit language/material that is profane, obscene, abusive, or offensive to others.
- Do not send mass emails, chain letters or spam.
- Users should maintain high integrity with regard to their email or other communication content online. If you wouldn't want your teacher or parent to see the information; don't say it.
- No private chatting during class without permission.
- District email is subject to inspection and use of this email account should be school related.
- Personal email accounts not provided by the district are not allowed on the mobile computer.

Personal Health and Safety

- Avoid extended use of the computer resting directly on your lap. The bottom of the laptop can generate significant heat and therefore cause temporary or permanent injury. Use a barrier such as a book when working on your lap.
- Avoid lap-based computing while connected to the power adapter as this will significantly increase heat production.
- Avoid lengthy use involving repetitive tasks (such as typing and use of the track-pad). Take frequent breaks and alter your physical position (typing while standing, sitting, leaning, etc.) to minimize discomfort.
- Maintain good physical posture while working at the computer.
- If possible, set up a workstation at home with an external keyboard and mouse that allows you to situate the screen at eye-level and the keyboard at lap-level.
- Read the safety warnings included in the Apple use guide.

Howard Winneshiek Community Schools

Standards for Proper Care of the MacBook

Etc.

- All mobile computers lock themselves with the active user account when not in use. Keep your password safe and do not share your password with others for any reason. Should your password become compromised contact the Tech Help Desk.
- Do not modify any files that you did not create. Deletion or changes to certain files can affect your mobile computers performance.
- Music and games are not allowed on the computer during school hours in the classroom. Do not save any games or programs (unless used for classroom purposes and approved by your classroom teacher). All software must be district provided.
- Users may be selected at random to provide their mobile computer for inspection.

How to Handle Problems

- Promptly report any problems to the Technology Department
- Don't force anything (e.g., popped-off keys). Seek help instead.
- When in doubt, ask for help.
